

# Current status

- ▶ **IN4 IDF geometry documentation:**  
`https://github.com/mantidproject/documents/  
blob/master/Project-Management/ILL/  
Instrument\_Definitions/IN4/IN4\_Geometry.md`
- ▶ **Pull request in progress: small Mantid code refactoring in preparation for GetEiMonDet version 2.**

## GetEiMonDet version 2

- ▶ For incident energy calibration.
- ▶ Theoretically, simple calculation from TOF between a monitor and some detectors.
- ▶ ...there is always something.

# Detecton delay between monitor and detectors

# Plans until next meeting

- ▶ **Work on** GetEiMonDet
