

IN6 Mantid and Lamp Comparison

Sprint Review Meeting 14/06/16

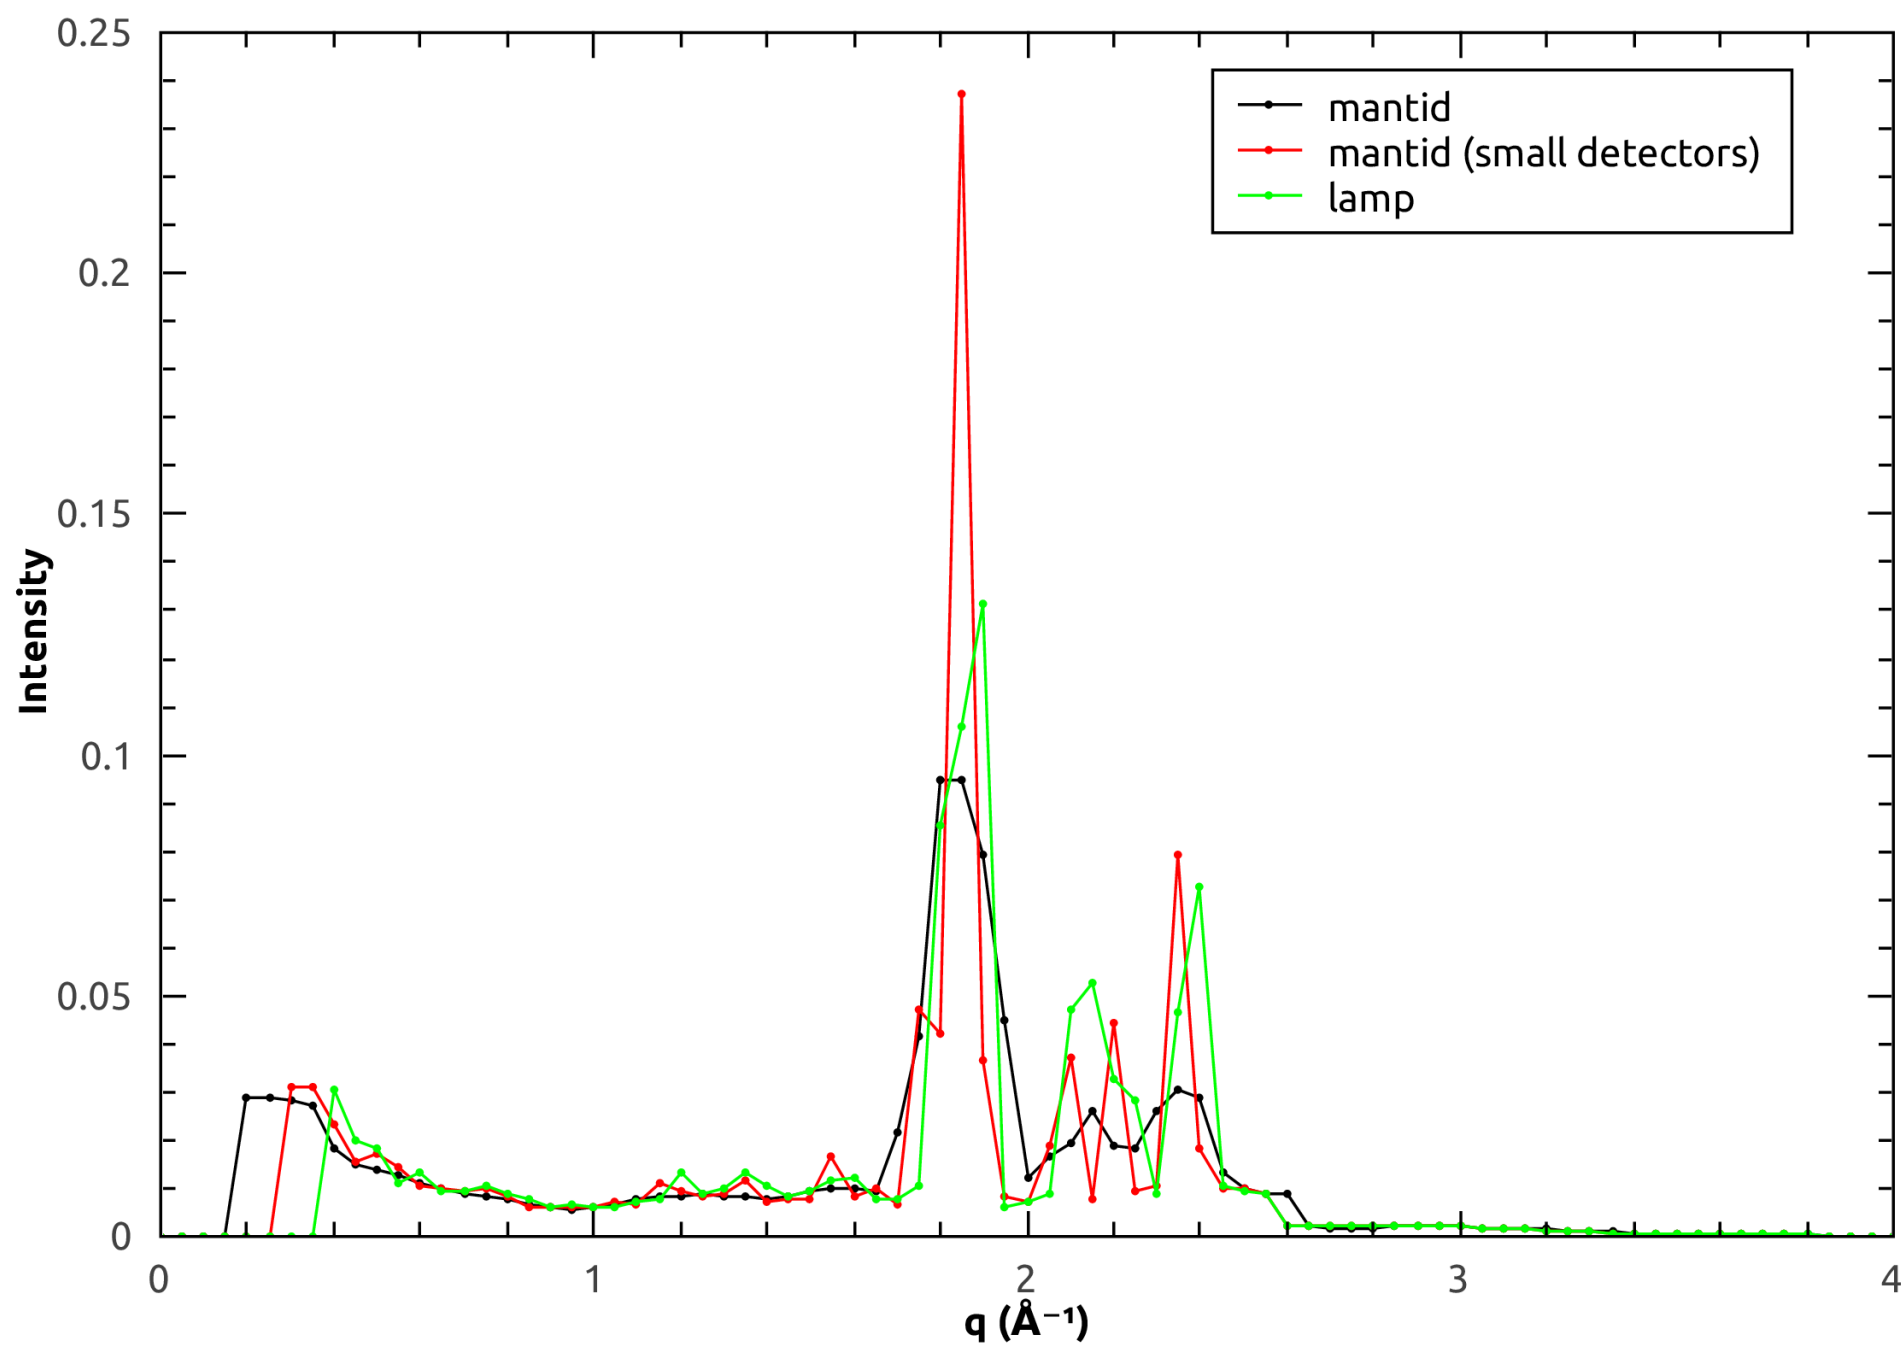

Standard IN6 Instrument Definition

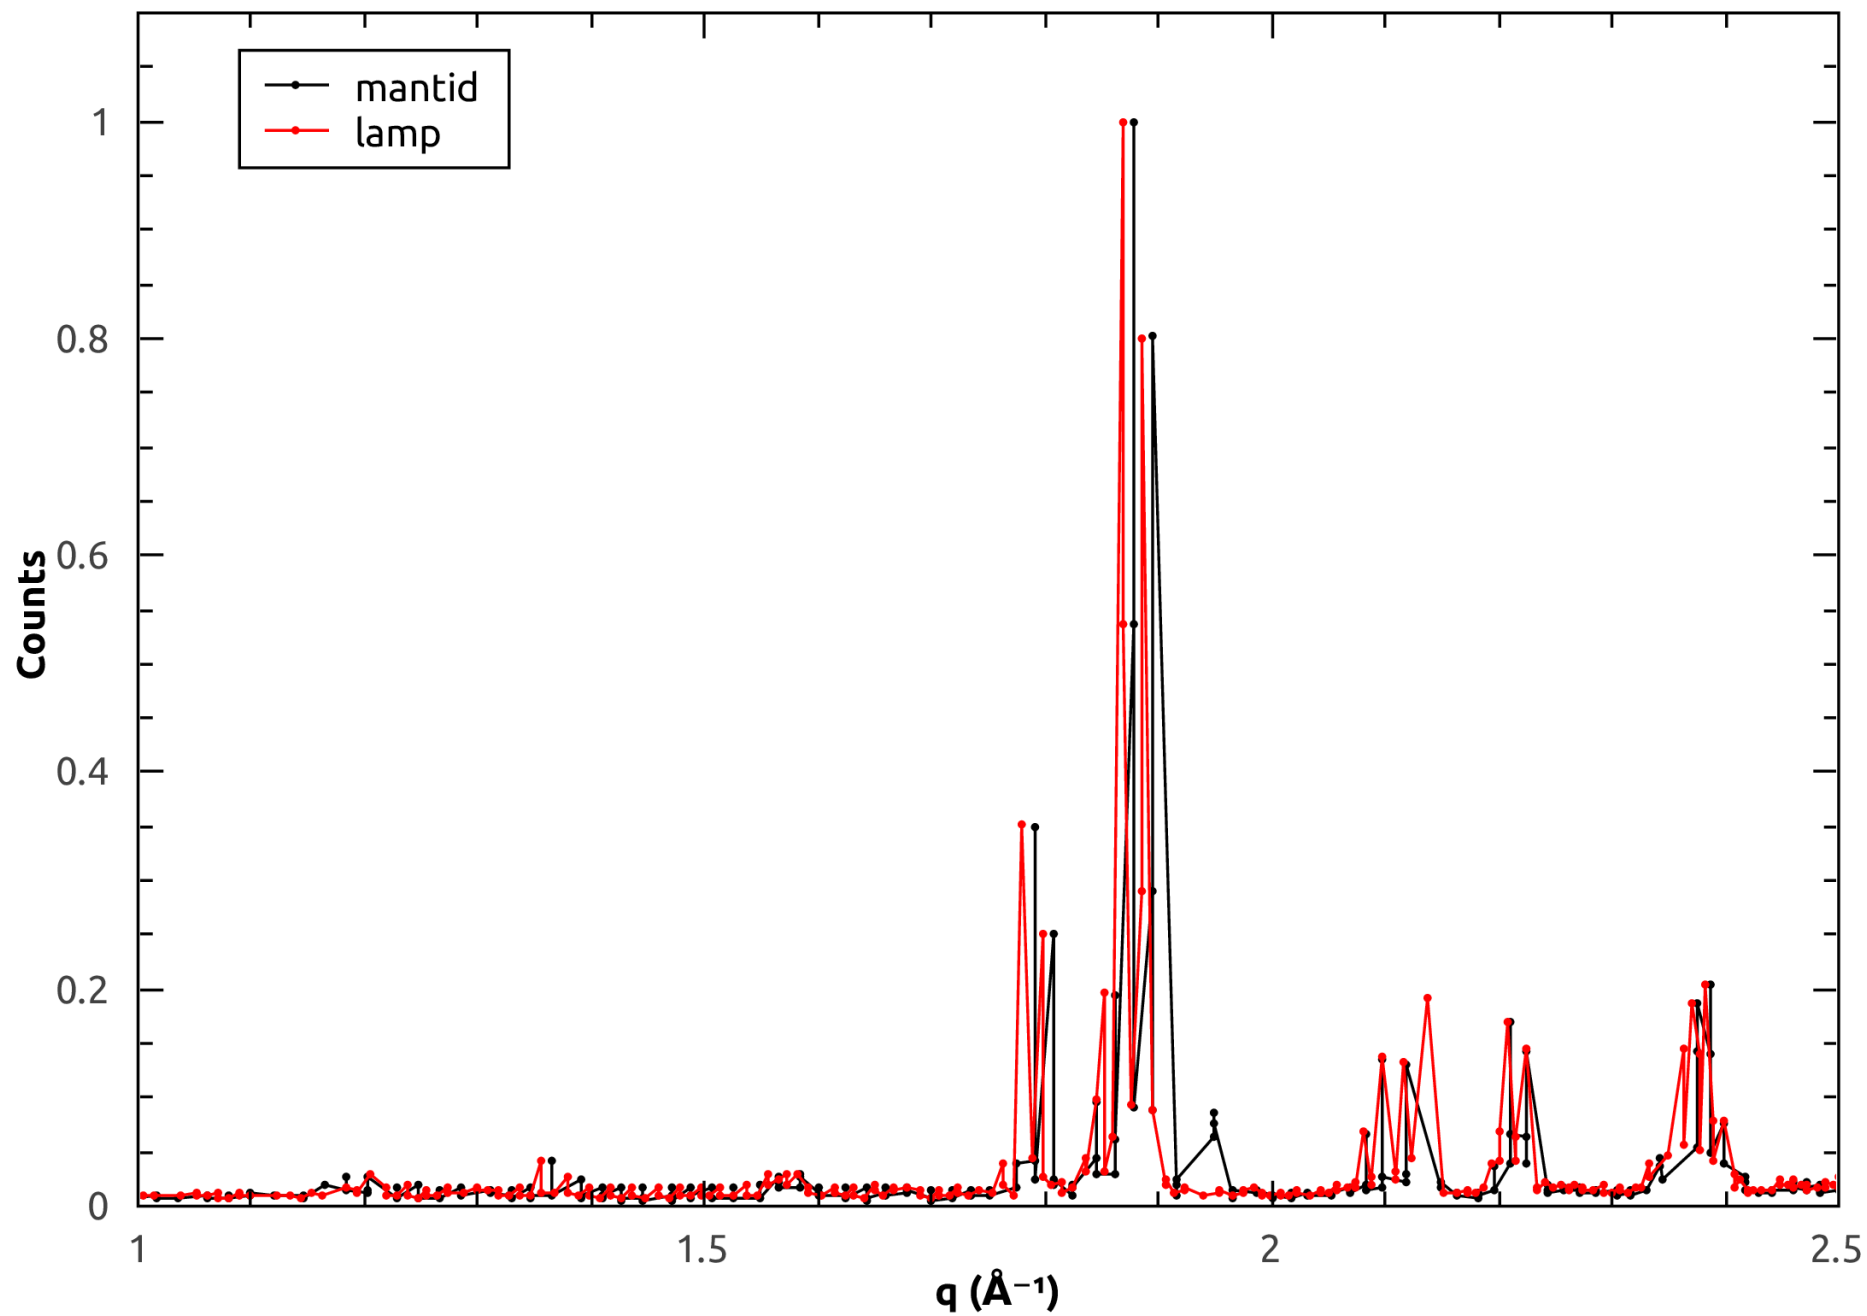

Small detectors for Lamp comparison

SofQW Comparison

Mantid vs Lamp Diffractogram

Work to Do...

- Finish looking into discrepancies in diffractogram – remove some of the extras such as vanadium normalisation
- Look at IN6 IDF – need correct positions for upper and lower banks (may not affect small detector comparison)
- Do the same comparison for another data set
