- ▶ Monday/Tuesday: manually tested mantidnightly - could not be very helpful
- ▶ (Not priority) FindEPP using multiprocessing runs Fit, however, needs fixes (does not get results properly)
- ▶ MatchPeaks release notes, pull request, fire new Jenkins hook (explanation on slack)
- ▶ IndirectILLFixedWindowScans issue created, needs to be pushed, I am running the code, adjustments, complete implementation (want to use AlgorithmRunner, SelectNexusFilesbyMetadata, modified IndirectILLReduction)
- ▶ Published Mantid IndirectILLReduction and IndirectILLFixedWindowScans (QENS ok, FWS errors) on johnsonpc2: /users/Mantid/bin/MantidPlot
