`DetectorEfficiencyCorUser`

- Pending for further input from instrument scientists

TOF workflow algorithm

- The work from MLZ was evaluated and discussed $\Rightarrow$ build our own workflow algorithm.
- Prototype `DGSReductionILL`
  - handles all datasets on one go
  - code not easily accessible to users

Pull requests reviewed

- *TOFTOF reduction workflow gui*
- *Update class_maker scripts*

Plans for future

- Finalize second `DGSReductionILL`, discuss our options
- Shortcomings in some of Mantid's algorithms identified
